MR. BRYAN IS AMUSED

Ironically Welcomes Mr. Taft as Re-
former but Points to Mr. Shel-
don's Statement

HOT SPRINGS, Va., July 20.—"It is the one great regret of my life that I ever left the bench and bar; I can never enter a court room without feeling the deepest regret I ever left the bench. That relation was, except my domestic ones, the sweetest of my life; then I was in association with none but upright, honest members of the bar who desired a 'square deal' all round."—Statement made by William H. Taft today.

HOT SPRINGS, Va., July 20.—With a short talk on "the administration of justice" in which he referred to Jefferson, Chief Justice Marshall and other great Virginians, Taft today formally dedicated the handsome bath at the county court house at Germantown. While he has not definitely declared his intentions, it is understood Taft will follow the McKinley plan of speech-making during the campaign. He will, it is believed, conduct a front porch canvass, speaking only a few times from the steps of his house in Cincinnati.

COLORADO SPRINGS, July 20.—Hundreds of republican leaders representing every state and territory in the west, went into conference with Chairman Hitchcock today. The conference was called to devise means of securing greater cooperation between the leaders in the west during the campaign. Denver is making an active bid for western headquarters of the national committee. It now looks like A. M. Stevenson, Denver, will have direct charge of the campaign publicity department.

HOT SPRINGS, July 20.—William H. Taft, republican nominee for the presidency, having completed his speech of acceptance, in which he will promise to uphold the policies of President Roosevelt if elected to office, made this formal announcement here today:

"The republican national committee will accept no contributions of any character from corporations."

Fear has been expressed by some of the older politicians who have visited Hot Springs that the publicity plan adopted will greatly reduce the amount of funds placed at the disposal of campaign managers. This apparently has no terror for Mr. Taft. The cost of running the campaign of 1904 is estimated today at \$2,000,000, while that of 1900 is said to have cost twice that.

What Speech Will Say.

Conservative progress along lines which marked the course of Theodore Roosevelt as president, with an occasional detour or expanding of a distinctly Taft character, will mark the speech of acceptance of the republican candidate.

Bryan Is Ironical.

LINCOLN, Neb., July 20.—William J. Bryan today spoke lightly and sarcastically of W. H. Taft's reported declaration that the republican national committee would refuse to accept campaign contributions from corporations. When shown a telegram quoting the republican nominee's alleged declaration the democratic leader studied it carefully and smilingly replied:

"We welcome Mr. Taft to this advanced ground and bid him come forward with the announcement that all contributions above a reasonable minimum will be published before the election."

Action of G. R. Sheldon.

Further than this Mr. Bryan could not be induced to say anything.

He had in mind the fact that George R. Sheldon, treasurer of the republican national committee, was quoted recently as asserting that contributions to the Taft campaign fund

INDEPENDENTS WAR ON TELEPHONE TRUST

WEBSTER CITY, Ia., July 20.—The biggest war between the Bell Telephone company and the independent telephone companies has begun here, and a fight to death is promised. The Bell people had merged all companies in Dubuque county, and then attempted to take in Story and Nevada counties. To meet this move the independents are just about to complete a merger of all the independent companies in the state with a capital of twenty millions.

DENTISTS ARRIVE FOR STATE SESSION

400 DELEGATES EXPECTED HERE
TOMORROW

DECIDE DIVISION OF STATE

This is One of the Important Topics
to be Considered at the An-
nual Convention

With about 400 delegates from Wisconsin, Illinois, Minnesota and Iowa in attendance the thirty-eighth annual convention of the Wisconsin State Dental society will open tomorrow at the county court house and will continue for three days, June 21, 22 and 23.

The meeting promises to be one of the largest and most interesting gatherings that has been held since the organization of the society. In addition to a very attractive program of papers, clinics and entertainments arranged and provided by the executive committee, the matter of the reorganization of the state society into districts will be brought before the convention for consideration and final adjustment. This will no doubt be one of the features of the meeting to assure a large attendance.

All meetings and clinics are to be held in the court house as well as the exhibits placed here by the leading dental supply houses throughout the country. One of the first exhibits at the building today was Dr. M. J. Wilbur of St. Louis, Mo., representing the Lambert Pharmaceutical company of that place, proprietors of "Listerine."

The program, which was prepared by Dr. E. A. Gatterdam and Dr. G. F. Houser of this city and Dr. H. G. Morton of Milwaukee, Wis., is a very attractive one.

Committees Tomorrow

The program opens tomorrow morning at 10 o'clock with a meeting of the various committees. In the afternoon the convention will be formally opened with an address of welcome by Mayor Wendell A. Anderson and this will be responded to by Dr. H. L. Banzhaf of Milwaukee.

Among the men of note who will attend the convention are Dr. Charles Channing Allen of Kansas City, Mo., who will read a paper on the "Art of Invention," and Dr. J. G. Hollingsworth of Kansas City, Dr. Hart J. Goslee of Chicago, Dr. T. B. Hartzell of Minneapolis, Dr. Miland A. Knapp of Minneapolis and Dr. Arthur T. Peck of Minneapolis will also take part in the program.

One of the features of the convention will be an automobile ride for the delegates on Wednesday evening. Thursday afternoon there will be a boat ride on the Mississippi with lunch and music. The steamer Rutledge has been chartered for this occasion.

BOSTON, July 20.—Eight persons lost their lives yesterday by drowning in this vicinity.

EXTRA

EX-SENATOR VILAS MAY BE DYING

MADISON, Wis., July 20.—Senator William F. Vilas, the only living member of ex-President Cleveland's first cabinet and chairman of the executive committee on the capitol building committee, suffered a cerebral hemorrhage at 5 o'clock this morning. While the patient is now resting easily his condition is so alarming that E. P. Vilas has been summoned from Milwaukee to his bedside. Dr. Philip R. Fox, the family physician, said the exact condition of patient can not be determined at this time.

Senator Vilas is 68 years of age, is a democrat, and during Cleveland's first administration served as postmaster general and secretary of the interior. He was a member of the 23rd Wisconsin infantry in the civil war and for a number of years was a member of the board of university regents. In 1896 he disagreed with the controlling faction of the democratic party and has since been in retirement. He is a noted orator.

TURKISH TROUBLE GOES FARTHER EAST

SOLDIERS DECLINE TO OBEY
MARCHING ORDERS

WOULD RECAPTURE TABRIZ

But Ruler's New Troops Are Without
Military Training—Massacre Is
On Now

VIENNA, July 20.—Macedonia rebels under the leadership of mutinous Turkish soldiers today held up a military train bound from Salonica to Uskub, killed the train crew and military escort, and looted the train. The Turkish commander at Salonica was notified and ordered troops stationed in eastern Macedonia to come at once to Salonica. The troops openly refused to leave and threatened their officers with death. This was wholly unexpected, for the eastern part of the country was not believed to be infected.

Shah Is Desperate.

ODESSA, July 20.—Driven to desperation by the utter rout of Rachin Khan's forces in Tabriz, who fled from the city before the united attack by practically the entire population, the shah today began recruiting an expedition to retake the city. He is hard pressed for soldiers, many of those joining the new army being civilians having no military training. The Tabriz revolutionists, mad for revenge, are hatching the few loyalists remaining in the city, and a reign of carnage is taking place.

TRAMPS PULL MAN'S TEETH TO GET GOLD

OMAHA, July 20.—Eight gold teeth proved the bait which drew T. C. Roberts of Tekamah, Neb., to his undoing, and today he visited a dentist to have the eight cavities refilled. Roberts was kidnapped for his teeth. He is a railroad brakeman, and while he was trying to out several tramps from the train they saw the teeth glittering. They left the train but took Roberts with them. They carried him to a lonely spot outside of Omaha, pulled the gold from his teeth, and then turned him loose.

HIGHBINDERS IN QUEST OF OFFICIAL

SACRAMENTO, Cal., July 20.—Chinese highbinders have set a price on the head of District Attorney Wachorst, following his success in obtaining a conviction for murder against Gin Sule, who killed another Oriental in a feud here. This is the first time the highbinders have set a price on a white man's head. Wachorst, realizing that they mean business, is being guarded by armed detectives.

RUNNERS BREAK RECORD

ADRIAN, Mich., July 20.—Over ten hours ahead of the New York Chicago schedule and over 45 minutes to the good on the run from Toledo to Adrian, the Y. M. C. A. relay runners reached here at 8:14 this morning. The time from Toledo was 5 1-3 minutes to the mile. This breaks all records thus far. The Adrian runners carry a message to Coldwater, Mich., and from there the course goes to White Pigeon, then out of Michigan to South Bend, Ind., where the Chicago runners take up the relay.

Succession and England's Mascot
Seems to Be Lost

LONDON, July 20.—Today's Olympic program started out with a decided American tinge to everything. C. M. Daniels, of New York, gave the Americans the first chance to whoop things up, by winning the final in the 100 meter swim, with Dehalmay of Hungary, second, and Jullin, of Sweden, third.

The failure of England's aquatic boys to be placed was a distinct check to Sir John Bull.

Nine Americans won heats in the 100 meter dash, J. A. Rector, of the University of Virginia, not only winning the heat but he tied the Olympic record of 19 4-5 made by Jarvis, at Paris in 1900.

The drawing in the 800 meter run by which Halstead and Sheppard were drawn for the same heat, were changed after complaint by James E. Sullivan, the Americans being started in separate heats. As a result both won, America being given another strong competitor in the final.

C. J. Bacon, an American, set a new record for "topping timbers" in the 400 meter hurdle in 57 seconds.

BATAVIAN BANK MUST STOP THE SMOKE OR LOSE ITS TENANTS

"There is nothing personal in the suit for damages and an injunction against the Modern Laundry," said E. M. Wing, cashier of the Batavian bank, whose suit against the laundry drew a communication from W. E. Barber Saturday. "We either have to stop the smoke from the laundry or lose our tenants."

The bank officials say they will prosecute the suit in order to establish a ruling and have the protection of the court. Tenants in the building today were quite unanimous in saying that they would leave the building unless relieved from the smoke.

The suit will be an interesting one. The bank will prosecute it vigorously, Mr. Barber declares he will appear in person, without an attorney and "leave it to the court."

It was said at the bank today that experience has demonstrated that the use of high grade coal will obviate the difficulty without more expensive means.

SUICIDES BECAUSE SHE CAN'T HEAR

MILWAUKEE, Wis., July 20.—Dependancy over her inability to hear well is supposed to be the cause of the suicide of Bertha Fischer, aged 19, daughter of Mrs. Amelia Fischer, 224 Washington street, who drank carbolic acid at her home.

The girl was partly deaf, and those who talked to her had to speak in a loud tone to be understood. Her affliction caused her continued embarrassment, and it is thought that the frequent humiliations occasioned by it so wrought upon her mind that she took her life to end them.

STATIONERS IN SESSION.

BOSTON, July 20.—Between 4,000 and 5,000 delegates are attending the fourth annual convention of the national association of stationers and manufacturers, which opened here today. The west is well represented by Chicago, St. Louis, Omaha, Denver, St. Paul, Minneapolis and Kansas City.

RICHARD SMITH IS MURDERED IN MINN.

LA CROSSE COLORED BOY IS
FOUND MANGLED

MOTHER GOES TO CLAIM BODY

Corpse Found on Tracks at Windom,
Minn., With Bullet Hole in Head,
Indicating Crime

Word has been received that Richard Smith, colored, of this city, has been murdered at Windom, Minn. His mother, Mrs. Emma Smith, left today for Windom and Minneapolis to identify the body and take possession of the remains.

From what can be learned young Smith was beating his way to Chicago and he was either murdered or run over by the train. The body when found was terribly mangled and there was a bullet hole in the head which caused the authorities to think that he was murdered and the body thrown under the train. He was known not to have had any amount of money in his possession at the time he left Minneapolis so the police are at a loss to find a motive for the murder.

Mr. Smith, who was 19 years of age, was well known in the city, having been raised here, was a printer, and was in the employ of the Gardner printing company about two years ago when he left for Minneapolis to work. He has been employed in that city until recently, when he was thrown out of work and intended to make his way to Chicago in search of employment when he met his death.

LABOR LEADERS ARE CITED AGAIN

WASHINGTON, July 20.—Citation for contempt was issued by Justice Gould in the supreme court of the District of Columbia this afternoon against Gompers, John Mitchell and Secretary Frank Morrison of the American Federation of Labor. The writ was made returnable Sept. 8th. The officials named must show cause why they should not be punished for alleged violation of the injunction issued last March forbidding them further to refer in print or by speech to the Buck Stove and Range company, St. Louis, as an "unfair" concern.

ANOTHER WARSHIP ACCIDENT OCCURS

HONOLULU, July 20.—Three men were seriously injured and a score of others narrowly escaped, when a tube in the forward boiler of the battleship Kearsarge burst late Saturday night. The official report of the accident was not made public until today.

Only the fact that the vessel was not under full steam and but few of the crew were below decks, prevented the injury of a large number. Three of the injured were severely scalded. The fires under the boiler were drowned at the first intimation of trouble.

PATHFINDER SHIP
ANCHORS AT MANILA

MANILA, July 20.—The battleships Maine and Alabama, pathfinders for the Atlantic fleet, are riding at anchor in Manila harbor. They arrived today ahead of schedule, and were greeted with a noisy welcome. The town is in gala colors for the visitors.

THREE CITIES TO ENTER FIGHT
FOR NEXT FEST

EVERYTHING IN READINESS

Committees and Heads Have Completed Work and Are Ready for Thursday's Crowds

Between today and next Monday, Chairman Harry Whittier of the advertising committee estimates that there will be approximately 35,000 visitors in La Crosse attending the Saengerfest. "We have sent out invitations and programs to about 50,000 and we expect that at least 35,000 of these will attend, basing our estimates on the acknowledgement that have been received. Everywhere the slogan is 'Meet me at the La Crosse Saengerfest,' and wherever a question is asked about the Saengerfest, all claim they have made arrangements to attend."

The advertising committee is especially busy the last few days making final preparations for the advertising work, and Chairman Whittier will leave tonight for Winona, where he will make a house-to-house canvass of the Gate City. After canvassing Winona he will visit Trempealeau and Dreshbach and expects to corral a large delegation from all these places.

A meeting was held this morning of the committee to ascertain the financial standing of the committee, and it was found that there still remains just enough to make the Winona trip and advertise the small cities enroute before adjourning until the next fest.

Secretary Utermoehl is now one of the busiest men in the city and is kept on a steady run arranging the final details for the opening, Thursday. Letters from the various societies are being received stating the time of arrival of the respective societies and from the general outlook noon on Thursday will be the busiest time for the arrival of the visitors.

It is expected that Omaha, Dubuque and Cedar Rapids will about the first to arrive and the respective societies will arrive in strong numbers and are prepared to make a great fight for the convention in 1910. Omaha is slightly favored from the present standpoint, but the other members of the trio have planned some unique features to spring in hopes of being the host of the next Saengerfest.

The place for the reserving of tickets has not been definitely decided upon by the committee in charge, but they expect to announce them by tomorrow, and have the seats ready to be reserved by Wednesday morning.

"Everything points forward to one of the greatest and most successful Saengerfests in the history," said Secretary John L. Utermoehl this morning, in charge of the final work are now busy in getting everything in readiness for swinging open the doors Thursday.

The advertising committee is busy mailing out circulars to the various members of the societies and those they think may be interested in coming to the fest.

MRS. CHRIS. BERG EXPIRES SUNDAY

Kunigunda Berg, widow of the late Christian Berg, died last evening at the home of her daughter, Mrs. Anthony Moss, 626 South Fifth street after an illness of about two weeks with complication of diseases.

Mrs. Berg was born in Germany and came to New York in 1850. In 1855 she came to La Crosse and has made her home here since. She is survived by one daughter, Mrs. Anthony Moss and one son, William Berg.

The funeral will be held from the St. Joseph's Cathedral Wednesday morning at 9 o'clock. Rev. G. Stryker will conduct the services and interment will take place at the Catholic cemetery.

HILL WOULD RAISE DIPLOMATIC JOB

BERLIN, July 20.—Dr. David Jayne Hill, the new United States ambassador to Germany, has started the old fashioned European diplomats by publishing an article in the Eue Review appearing today on the relations between morality and diplomacy. He declares diplomacy can succeed only by following moral methods.

"The time is gone when intelligent men accepted the definition ambassador as a clever diplomat who was sent abroad to lie about his fatherland," Hill writes. "Diplomatic success cannot in the long run be achieved by dishonorable methods. This truth is recognized at last."

He pleads for the elevation of international relations to a higher plane by the conduct of international affairs on those moral and ethical lines which honorable men follow in their private affairs.

THREE FINED FOR IMBIBING FREELY

William Stoehr was found guilty before Judge Hunt this morning of being drunk and disorderly, and was given ten days in the city bastille. Jack Massey on a similar charge was given five days in the city jail and Harry Lane was fined \$4.50 which was paid. All the offenses occurred Saturday night.

NEW YORK, July 20.—The police throughout the east today are on the lookout for August Eberhardt, who is wanted in connection with the murder of his aunt, Mrs. Ottilie Eberhardt, and the attempted murder of her daughter on a railroad near Coalburg, N. J. The police believe Eberhardt deliberately lured the women from their home in Austria, with the intention of killing them for a little fortune he knew they possessed. The murderer took \$2,450 from the bottom of the dress of Mrs. Eberhardt, after shooting her through the heart and brain, then throwing the body before a train where it was frightfully mangled. It was found when the girl, who had been shot three times, gave the alarm. The women had arrived last Thursday from the old country. The murder occurred Saturday, when Eberhardt took them for an outing in New Jersey.

Two members of a section crew starting on their rounds from the Rochelle Park station early Sunday morning stumbled on fragments of the murdered woman's body. The Hackensack police were notified and Chief Dunn ordered the body removed to Ridgewood morgue. Here he and Coroner De Munn examined the dead woman's clothing.

First Regarded as Suicide.

It was clear that she was not a native of the neighborhood, and appeared to be a foreigner. It was some time before the two bullet wounds, one in her right breast and the other through the upper part of her neck, were discovered, and it was decided she had committed suicide. This was borne out by the fact that she wore a valuable gold watch on

GREEN BAY, Wis., July 20.—(Special.)—The last of the present series went to La Crosse by the score of 2 to 1. Eberly was invincible and could not be found at critical times. The game was exciting throughout. Connelly called a man out at the plate for Green Bay when it looked like safe from the grand stand. Skel Roach of Chicago pitched part of the game for Green Bay, but was found easy and often.

Saturday's Game

GREEN BAY, Wis., July 20.—(Special.)—Green Bay won Saturday's game by the score of 3 to 2 in one of the most interesting and exciting games of the series. Jones and Vance started the game but in the third inning Jones was hit hard and resulted in three runs. Hawley then replaced Jones and held the locals safe all through the remainder of the game. Vance pitched good ball. Duchien made a sensational one handed catch. The score:

WAUSAU PICKED BY MILWAUKEE FANS

MILWAUKEE, Wis., July 20.—With the first half of the season in the Wisconsin-Illinois league completed the last week, Wausau is the favorite for the pennant, but the race is by no means a runaway. Just now the Lumberjacks are handicapped by having practically all their

pitchers suffering from lame arms, and as high class pitching has been one of the factors in the team's success, Wausau has been beaten often on its home grounds of late and is not so far ahead but that a couple of weeks' reverses might bring it down to the level of the other clubs.

The Freeport champions, after starting well at Wausau and occupying first place for one day, have since been consistent losers and have taken a big drop in percentage the last week. The champions play hard ball every day, however, and are one of the hardest teams in the league to beat.

La Crosse fans have about given up hope of finishing higher than third unless the pitching staff is immediately strengthened and some ginger is infused into the base running. The team is hitting the ball regularly, being far ahead of either Wausau or Freeport in stick work, but its pitchers have been working in in-and-out form, a twirler pitching a shutout in one game and probably being slammed for a dozen hits in the next, and this uncertainty keeps the team from going higher.

Madison has been holding its own on the present trip and it and Fond du Lac are the ones which now seem most likely to challenge the leadership of Wausau and Freeport, if any team is to do so. Both are strong in all departments and play an aggressive game which makes them dangerous at all times.

There are no longer easily beatable tail-enders in the league. Oshkosh, Green Bay and Rockford have simultaneously strengthened and the three are running neck and neck and winning pretty regularly from teams higher up in the percentage column. Kid Nichols is the latest former big leaguer to take a managerial berth in this league, and with Nichols, Pink Hawley and Jack Pickett each trying to pilot teams to the top, the organization has many reminders of the national league. Green Bay has improved wonderfully under Pickett's management, as has Oshkosh under Nichols in the last couple of weeks.

The race the last three teams are making to keep out of the eighth hole may land the whole three of them considerably higher before it is over.

YALE CHAMPION WINS WESTERN GOLF TITLE

ROCK ISLAND, Ill., July 20.—Mason E. Phelps of Middletown, Chicago, former Yale champion, Saturday won the Western Amateur Golf championship at the Rock Island arsenal links by defeating Harry W. Allen of St. Louis, 6 up and 5 to play.

Both players showed the strain of the week's playing, the quality of golf today not being up to the standard of the tournament, Phelps making the morning round of 18 holes in 78, and Allen in 80. In the morning round Phelps assumed the lead on first hole and was headed only once by his opponent, though he never had Allen more three down and at the end of the morning round Phelps was two up.

At the opening of the afternoon round, Allen evened up on the first two holes, but lost the next three in succession and was four down at the turn. Phelps won the tenth, Allen retaliating at the eleventh; but Phelps took the twelfth and thirteenth by steady playing, and the match ended with Phelps 6 up and 5 to play.

EXCLUDE FEMALES FROM FIGHT GAME

SAN FRANCISCO, Cal., July 20.—The cry has been raised against women fight fans here and taken before the supervisors. An effort will be made to have the permits drawn for the next fight in such terms as to exclude women from the ringside. The action is largely the result of the recent Nelson-Gans battle, during which the Dane tossed a few oral bouquets at his dusky antagonist that were scarcely fitted for feminine ears. Some of the choicest of these were dealt out by the champion when he had Gans on the canvas and knocked out, and was taunting him and daring him to get up again.

S.S.S. CURES MALARIA

Malaria is due to impurities in the blood which destroy the rich, healthful qualities of the circulation, and reduce it to a weak, watery fluid. The body is then deprived of its necessary nourishment and strength, and is unable to resist the countless disorders that assail it, and the general system suffers in consequence. The appetite fails, digestion is weakened, chills and slight fever are frequent, while the sufferer loses energy and ambition. Boils, skin eruptions, and some times sores and ulcers follow when the blood becomes deeply polluted with the malarial germs. Both a tonic and blood purifier are needed to cure Malaria, and S. S. S. is best fitted for this work. It is the most perfect of all blood purifiers and at the same time an invigorating, healthful tonic. S. S. S. goes down into the circulation, and removes every trace of impurity or poison, and gives to the blood the health-sustaining qualities it needs. It cures Malaria thoroughly and permanently because it removes from the blood the germs and poisons which produce the disease, and while doing this tones up and strengthens every part of the system. Book with information about Malaria and any medical advice furnished free to all who write.

THE COMPLETE NEWS OF THE NORTH SIDE TODAY

WHY DOES A WHITE STEAMER

make good in every prominent contest in which it is entered? That is a question which greatly disturbs the "knocker" whose principal aim is to discredit the WHITE and in his zeal to establish himself as a wise one on the much discussed (and abused) topic of automobiles relates some of the most absurd fictions concerning the world famous WHITE. One of these fictions is that the White generator will "explode." Let us send you bulletin No. 15 just issued by the White Co., which contains a complete description and picture of the most famous steam producing device ever invented; namely, the WHITE GENERATOR.

As a matter of fact no well informed motorist any longer harbors the delusion that a WHITE can explode.

Do you think for a moment that such world famous characters as President Roosevelt, the Princess of Wales and Mrs. W. K. Vanderbilt would use WHITE Steamers if any of the foolish fictions continually repeated by overzealous or misinformed persons were true? We hardly think so.

Why not learn more about the WHITE Steamer. Get acquainted with it and if after a close acquaintance you do not like it say so and give your reasons—but do not get your impressions of a WHITE Steamer from third parties whose principal aim is to discredit the car which alone is distinctively American, and is not a copy of any foreign article.

AMUSEMENT ASSN. TO FOOT UP LOSS

WILL BE ABLE TO STAND IT FROM PAST PROFITS

ANOTHER CARNIVAL NEXT YEAR

Association Will Probably Try to Arrange for Kline Company to Make Up for This Year

The North Side Amusement association will hold a meeting the last of the week to go over the reports of Secretary Gibson in regard to the recent carnival. The association lost some money on account of the Patten company not being able to fulfill their engagement, but they have considerable money in the treasury, so that they will be able to stand the loss.

If the secretary had known that the Kline company would have been able to come here this week, no doubt the carnival would have been postponed, but from communication received Mr. Gibson understood that the Kline company had no engagement for some time to come, and as considerable advertising had been done it was thought best not to disappoint the people.

It is not known what company will be brought here next year, but there is a determination on the part of the members to fully compensate the people for this year's rather mediocre carnival, by having a company of exceptionally high class. The Kline company is thought to be the best on the road, so there is good reason to believe that this company will be brought here next year with better results than have heretofore been attained.

VIROQUA'S NEW CATHOLIC CHURCH

LA CROSSE CHURCH OFFICIALS HAVE CHARGE

LARGE CROWD IS PRESENT

Story of How the Catholics of Viroqua Struggled to Secure the New Edifice

VIROQUA, Wis., July 20.—(Special.)—The special train was late so that the dedicatory ceremonies of the new Catholic church were delayed and shortened somewhat the exercises later in the day.

The dedication sermon by Rt. Rev. James Schwebach was from the text "My house is a house of prayer" and was very impressive. The bishop opened his sermon with the words:

"My dear friends: When fifty years ago I came for the first time to this part of the country and saw this beautiful town I said to myself, 'Isn't it too bad that we have no Catholic church in Viroqua.' I investigated and found that there were only a few, about two or three Catholic families here at that time. 'Well,' I said to myself, 'I hope that in the course of time Viroqua will make a better showing in regard to this.' Thanks be to God we are here today to dedicate the first Catholic church to the Almighty. I was surprised when Father O'Reilly came to me and said, 'Bishop, I think we could do something in Viroqua. There is quite a number of Catholic families there and the non-Catholic families there are very free and generous and I think they would help us too,' and I found his words were correct. It was quite an undertaking to build here this little church with a few families but Father O'Reilly went to work with a good will, trusting in God and the kindness of his fellowmen and the kindness of the people of Viroqua. He has succeeded exceedingly well. He has erected here a neat little church, very neat in all its details. The best of it is I think that it is nearly all paid for. No doubt the good people that are here this morning will open their hearts and the pocketbooks in order to assist a little to wipe out that small debt which still rests on this neat little church. I am very thankful for what Father O'Reilly has done but he has done it for the honor and glory of God and the good of his fellowmen. I sincerely thank the good people of Viroqua, the members of the church and the non-Catholics who have so generously contributed toward this house of God. May the good God reward them for what they have done. . . . I wish to thank all this morning who have assisted in erecting this house for the honor of God. . . . You have built this house not for man, not for human purposes, but for the Almighty himself, and he says 'My house is a house of prayer.' Yes, indeed, this is the house of God, set apart and blessed with special ceremonies for that purpose that it may serve for the honor and glory of God alone. It is the house of God. . . . set apart for the honor and glory of God that people would come here, fall down and pay their homage to their God, to the Infinite Majesty for all the blessings which he has bestowed upon them; hither they will come when they are troubled and receive here balm for their sorrows. . . . here be strengthened, here they can receive the message from their eternal home. For here in this house they are to listen to the word of God, to that word which is to enlighten them. . . . It is light that we want. . . . Let there be light. . . . Without light there can be no growth; there can be no life; Light for the human understanding, for the human mind and that light we find in the house of God, the word of God is to enlighten us about our destiny, the word of God tells us about the home beyond the stars where our Father dwells and where he is preparing a place for each one of us. The word of God tells us which way we must walk if we desire to arrive at that eternal home which is prepared for every one of us. It is the word of God which we hear in the house of God that tells us what means we must employ if we desire to arrive safely at our eternal home. 'Yes, my dear people, from that light comes forth comfort and light upon our path. . . . It brings comfort upon our different stations of life which men have chosen and it gives us joy; joy even in the trials and hardships which we meet on earth.'

It is the house of God. . . . set apart for the honor and glory of God that people would come here, fall down and pay their homage to their God, to the Infinite Majesty for all the blessings which he has bestowed upon them; hither they will come when they are troubled and receive here balm for their sorrows. . . . here be strengthened, here they can receive the message from their eternal home. For here in this house they are to listen to the word of God, to that word which is to enlighten them. . . . It is light that we want. . . . Let there be light. . . . Without light there can be no growth; there can be no life; Light for the human understanding, for the human mind and that light we find in the house of God, the word of God is to enlighten us about our destiny, the word of God tells us about the home beyond the stars where our Father dwells and where he is preparing a place for each one of us. The word of God tells us which way we must walk if we desire to arrive at that eternal home which is prepared for every one of us. It is the word of God which we hear in the house of God that tells us what means we must employ if we desire to arrive safely at our eternal home. 'Yes, my dear people, from that light comes forth comfort and light upon our path. . . . It brings comfort upon our different stations of life which men have chosen and it gives us joy; joy even in the trials and hardships which we meet on earth.'

The dedication sermon by Rt. Rev. James Schwebach was from the text "My house is a house of prayer" and was very impressive. The bishop opened his sermon with the words:

"My dear friends: When fifty years ago I came for the first time to this part of the country and saw this beautiful town I said to myself, 'Isn't it too bad that we have no Catholic church in Viroqua.' I investigated and found that there were only a few, about two or three Catholic families here at that time. 'Well,' I said to myself, 'I hope that in the course of time Viroqua will make a better showing in regard to this.' Thanks be to God we are here today to dedicate the first Catholic church to the Almighty. I was surprised when Father O'Reilly came to me and said, 'Bishop, I think we could do something in Viroqua. There is quite a number of Catholic families there and the non-Catholic families there are very free and generous and I think they would help us too,' and I found his words were correct. It was quite an undertaking to build here this little church with a few families but Father O'Reilly went to work with a good will, trusting in God and the kindness of his fellowmen and the kindness of the people of Viroqua. He has succeeded exceedingly well. He has erected here a neat little church, very neat in all its details. The best of it is I think that it is nearly all paid for. No doubt the good people that are here this morning will open their hearts and the pocketbooks in order to assist a little to wipe out that small debt which still rests on this neat little church. I am very thankful for what Father O'Reilly has done but he has done it for the honor and glory of God and the good of his fellowmen. I sincerely thank the good people of Viroqua, the members of the church and the non-Catholics who have so generously contributed toward this house of God. May the good God reward them for what they have done. . . . I wish to thank all this morning who have assisted in erecting this house for the honor of God. . . . You have built this house not for man, not for human purposes, but for the Almighty himself, and he says 'My house is a house of prayer.' Yes, indeed, this is the house of God, set apart and blessed with special ceremonies for that purpose that it may serve for the honor and glory of God alone. SOCIETY

PRETTY WEDDING AT WEST
SALEM.One of the prettiest weddings of
the season was solemnized at the
home of Mr. and Mrs. Henry Ken-
drick at West Salem on Wednesday
evening, July 15th, when their
daughter, Mae Antoinette, was united
in marriage to Clarence Julian
Johnson.Promptly at 7 o'clock the bridal
party wended their way to a bower
of crepe ribbons, smilax and ferns
in the west bay window to the strains
of Lohengrin's march rendered by
Miss Merle Johnson, a niece of the
bride. Little Eunice Fillner, in a
dainty white frock and bearing a
beautiful basket of pansies, led the
way. She was followed by the bride
and her father. Miss Kendrick was
attended by Ruby Gullickson of West
Salem and Beatrice Leissring of La
Crosse. The groom was assisted by
Harrison Johnson and Harrison Stor-
end, both of West Salem.The bride's gown was a most be-
coming combination of "imported
swiss, eluny and valenciennes laces,
and she carried a beautiful shower
bouquet of white roses. Miss Gul-
lickson was attired in pink silk mull,
Miss Leissring in white silk mull and
both carried pink carnations. The
pretty ring service was read by Rev.
S. L. McKee and after the happy pair
had received the hearty congratula-
tions of relatives and friends an elab-
orate dinner of five courses was
served. The rooms were daintily
decorated with flowers, ferns and
festoons of crepe ribbons, smilax,
cupids and hearts. The gifts were
many and beautiful, consisting prin-
cipally of china, cut glass and silver.
Mr. and Mrs. Johnson had planned
to leave on the 10 o'clock train and
expected to escape in an automobile
but their friends had decided other-
wise and thoughtfully provided a
shetland pony and cart to convey
them to the station followed by
friends. Amid showers of best wish-
es and rice they departed for Milwau-
kee, Chicago and other eastern points
and after a short trip will return to
La Crosse where they will be at home
to their friends after Sept. 1st, at

HOUSE PICNIC.

Saturday afternoon the "Merry Go
Rounds" and a few invited guests
held a picnic at the home of Mrs. F.
J. Toland. It was planned for an
outdoor affair and chairs and tables
were arranged upon the lawn, when
a hard and sudden shower caused a
change of base and the party adjourned
to the commodious veranda where
the hours were passed in harmless
gossip until supper was announced.
There were about twenty-five pres-
ent and the good things with which
the table was loaded vanished in the
twinkling of the eye. Those present
were Mesdames Elmore for whom the
affair was given, F. E. Davis, F. J.
Toland, Dr. and Mrs. Gatterdam,
Gene and Paul Gatterdam, Mr. and
Mrs. D. G. Whyte and Kenneth, Mr.
and Mrs. Levi Whyte, Mrs. L. J. Saw-
yer, Mrs. David Austin and grand-
daughters Betty and Virginia Hill of
Chicago, Mrs. S. W. Anderson and
Samuel Anderson, Mrs. Doerflinger,
Mrs. Langenbach, Mrs. Alex Hyslop,
Miss Gertrude Hayden, Miss Alice
Wheeler, Mr. Leigh Toland and
Hewett Toland.

IBSEN CLUB OUTING.

Saturday afternoon Mr. E. C. Hig-

gins took the Ibsen club up the river
in his launch "Nancy." The party
went to Dresbach, where they made a
landing and strolled around town for
a while. Supper was served on board
of the launch. Among those who en-
joyed the trip were Dr. and Mrs.
Gunderson, Mr. and Mrs. Homer Hart
and Dorothy, Dr. Oegle of Sioux Falls,
O. J. Oyen, O. R. Skaar, Mesdames
Bergh of Sioux Falls, Jorstad, John
Haugen, Nyhus, Stavrum, C. A. Ol-
berg, Henry Gund, Carl Borresen, E.
C. Higbee, Miss Fassett of Portland,
Me., Miss Lulu Coren and Miss Lil-
lie Borresen.

SUPPER AT MYRICK PARK.

Last evening a party consisting of
the families of O. J. Oyen, Homer
Hart, O. R. Skaar, and Mrs. C. A.
Olberg took their baskets and went
to Myrick park, where they ate their
picnic supper.

DIARRHOEA

There is no need of anyone suffering long with this disease, for to
effect a quick cure it is only necessary to take a few doses ofChamberlain's Colic, Cholera
and Diarrhoea RemedyIn fact, in most cases one dose is sufficient. It never fails and can be
relied upon in the most severe and dangerous cases. It is equally
valuable for children and is the means of saving the lives of many
children each year. In the world's history no medicine has ever met
with greater success. Price 25 cents. Large size 50 cents.

W. F. WOLFE PAYS TRIBUTE

Delivers Eloquent Address on "Fraternism" Before the Lodgemen

The annual unveiling of the monuments of the deceased members of the Woodmen of the World was held yesterday at the Oak Grove cemetery with impressive ceremonies. After a brief series at the lodge chapel in the Linker building, the Uniform Ranks of the north and south side lodges together with the members of the visiting societies, marched with a band to the Oak Grove cemetery, where the services were held over the grave of John W. Stunkard, the last deceased member.

Attorney William F. Wolfe delivered an eloquent address on "Fraternism" and received compliments from all the visiting societies. Rev. Wood of the North Presbyterian church delivered the prayer at the grave after which State Secretary W. T. Moss delivered a short address. Miss Yehle of the north side rendered Longfellow's "Psalm of Life," which was heartily applauded.

Delegations from Winona, West Salem, Sparta and Bangor were in attendance at the unveiling and during the ceremonies there were in the neighborhood of one thousand visitors in the cemetery.

LURES WOMEN OVER
SEA TO SLAY THEM

(Continued from page 1.)

a solid gold chain around her neck, and in a small black handbag which was found near her body were six kronen notes, about \$125. In this bag was also found a receipt for \$5 paid as the first installment on a flat at 1466 Amsterdam avenue, New York. Beyond the woman's name, which was given in this receipt, there was no clue as to her identity or how she came to be in Jersey.

Girl Tells of Tragedy.

An hour after the body was found and before he had been notified of it, County Prosecutor Ernest Koester of Bergen county was called from his house on Central avenue by August Wormer, who lives at Passaic Junction, a mile and a half west of Rochelle Park, who turned over to him the frightened young girl, who, he said, had been brought to his house late in the night by an Italian, had spent the night there, and now wanted to hunt for her mother, who, he said, had been struck by lightning on the railroad tracks. Miss Eberhardt was still so dazed that she hardly realized she had been shot herself. The prosecutor took her into the house and obtained a weird story from her. She said her mother carried \$2,400 in her clothing.

Young Eberhardt, she said, had called upon her and her mother at a hotel in New York, where they had been staying since their arrival in the city. She could not remember the name of the place and was hazy as to its location. It was hot and her mother had suggested that they go up to one of the parks. The young man had replied it would be much better to take a trolley ride out into the country, and they had set out.

Thought Lightning Killed Mother. When the arrived at Rochelle Park, the girl said, her cousin had suggested they get out and take another trolley back to the city. It was getting late and commencing to thunder and lightning. Alighting from a car nearly a mile from the Rochelle Park station young Eberhardt led the woman and her daughter directly away from the trolley tracks toward a railroad. It was dark, the girl said, as they turned into the railroad tracks. They walked between the tracks in the direction of Paterson. Suddenly there was a terrible crash of thunder, a vivid flash, and screams from the women. As the girl swung around her mother sank down on the tracks, crying in German: "I have been hit by lightning."

Cousin Told Her to Run.

The young woman rushed back to her side and just as she stooped over her four shots that grazed her head and body were fired from close behind her. She staggered to one side, dazed, and declares her cousin grabbed her and shouted in her ear to run as fast as she could. Turning without a word she stumbled blindly off the tracks. She was so frightened, she did not look around once, she said, to see if her mother and cousin were following, and did not stop until she saw a light in the window of a small house near the tracks, and fell exhausted on the doorstep.

The girl could give no explanation of the tragedy when she was told that her mother had been shot, but insisted her cousin could not be suspected.

BIG SHOW COMES
HERE TOMORROW

RINGLING BROS'. HEAVY TRAINS
FAST HEADING FOR LA CROSSE

PARADE SET FOR 10 O'CLOCK

Sensational Double Somersault in Automobile is Climax of Great European Program

Parade Line of March North on West avenue to State, west on State to Front, south on Front to Main, east on Main to Eighth, south on Eighth to Cass, west on Cass to Fourth, South on Fourth to Jackson, east on Jackson to West avenue, south on West avenue to grounds.

If signs deceive not the whole surrounding country will empty into La Crosse tomorrow to see Ringling Brothers' World's Greatest Shows. Seldom if ever has the coming of a circus stirred up the excitement and impatience that has been created by the approach of the morrow. The unusually striking program which the circus offers this year is the reason of it.

The first of the five long trains is expected to arrive shortly after midnight, the others following at intervals of an hour. By daylight everything will be unloaded and the building of the wonder city will begin. When sightseers reach the grounds later in the day twelve acres of canvass will spread out like a great white sea, dotted with thousands of flags and streamers.

At 10 o'clock the fun will begin when the greatest of all parades winds in majestic column through the streets. The usual route will be followed. This parade is not in the least like those that have been seen in the past, it having been built on absolutely new lines and being vastly more elaborate, costly and rich in novelties than those of past years. From the great imported golden band chariot with its twenty-four horses in the lead to the big cathedral pipe organ in the rear nothing will be shown that has been seen before.

There will be two performances, one at 2 o'clock in the afternoon and the other at 8 in the evening, the doors opening an hour earlier for an inspection of the finest and most extensive zoological exhibition ever offered in America. During this hour visitors will also be entertained by an operatic concert given by Ringling Brothers' military band.

The program is introduced this year by a new spectacle and the 200 acts that follow are presented almost without exception by European artists. The masterpiece in the nature of recklessness and daring is found in the blood-freezing double somersault in midair of a heavy automobile driven by La Belle Roche. The down town ticket sale, conducted for the accommodation of those who wish to avoid the crowds on the grounds, will be located at Young's drug store and prices there will be exactly the same as at the regular ticket wagon.

COMMITTEE FOR
CITY'S BIG PICNIC

Mayor Anderson this morning appointed the following committee to have charge of the arrangements for the annual outing of the city officials to be held a week from Thursday July 30: Secretary Joe Slegers, Aldermen Houska, Rose, Hirschheimer, Goddard and Bartel.

The committee have made no arrangements at the present, but it is probable that one of the local boats will be chartered and a trip taken up the river to Dresbach or some other place well known to anglers.

SEVEN BAPTISED
IN MOONLIGHT

BELOIT, Wis., July 20.—Seven candidates were baptized by immersion in the Rock river in the silence of the night, the pale moon lending its soft light to the ceremony which was conducted by Evangelist Taubman.

CHILD DIES The infant son of Mr. and Mrs. Henry Carson of Dresbach died Saturday. The interment will take place in Dresbach today, Mrs. Theodore Mannstedt is in charge.

RINGS
ENLARGED

Broken pins mended. Stones replaced in settings. Old chains made as good as new. Old jewels reset in modern styles. Tarnished brooches restored to beauty. Any needed repair of jewelry done skillfully, quickly and for a moderate charge over the cost of the materials.

He names well recommended and President Moll, who is in the city today stated that he is fast and will make a valuable addition to the team.

The new recruit will join the team tomorrow at Freeport, where they will open a series after playing Sterling, Ill., today. Nicholson will probably pitch in the game.

President Moll, while enroute to St. Paul stopped off at La Crosse this morning and conferred with President Elliott of the local team.

TAFT TO FOLLOW
MCKINLEY PLANS

(Continued from page 1.)

would not be published until after the election, as provided for in the corrupt practices act of New York, and to the further fact that at its recent conference with him at Fairview the democratic national committee unanimously adopted a resolution providing for the publication not later than Oct. 15 of all contributions to the Bryan campaign fund above \$100, and also that the committee at the same time adopted a resolution declaring that no corporation would be permitted to contribute to the Bryan fund. Mr. Bryan, however, would not consent to be interviewed as drawing a comparison along this line between the action of his committee and that of Judge Taft. He contented himself with the bare statement for publication here quoted.

Dollar Fund Started. GUTHRIE, Okla., July 20.—The "dollar contributions" by which W. J. Bryan expects to raise most of the money for the present campaign, have been started here. The Daily Oklahoman (democrat) expects to turn several thousand dollars over to the national committee.

"I heartily approve of your plan. Get all the dollar subscriptions you can, and accept larger ones from those able to give more," wired the Commoner when notified of the movement.

Wants Masses to Help FAIRVIEW, Neb., July 20.—Bryan wants the masses to finance his campaign for the presidency. Not only so, but in a statement issued today he explained that such action was necessary. "If the rank and file of the voters of the country are to have a hand in directing its affairs," he also makes plain his position in connection with the receipt of contributions from the so-called interests. Bryan has been greatly disturbed by reports which have been printed in the east that the last session of congress enacted a law which prohibited corporation contributions. He points out in interviews with visitors who discuss campaign expenses that this bill, which he characterizes as a halfway measure, was killed in the senate through the attachment thereto of an enactment providing for an investigation of the vote of the south, the plan being to reduce the southern representation in congress. In his statement today Bryan says:

Wants People's Aid "I wish every democratic paper in the country would begin the collection of a fund in small amounts from subscribers. There are few democrats who couldn't afford to make a small contribution, and the people never will be able to control the government until they take upon themselves the burden of supplying the campaign funds. As long as a few men furnish the money to finance campaigns these men will exert an undue influence in government. It seems we have reached the end of corporate contributions. This is a step in advance, but individuals who control these covet-seeking corporations may still dominate politics by furnishing the sinews of war. The democrat party has struck a blow at this system by limiting contributions to \$10,000 and providing for publicity before election. The republican party has so far refused to join us in this proposition, but public sentiment may yet compel them. I haven't a doubt the democratic party will receive contributions from more individuals than ever before contributed to any campaign and there is no reason why the entire sum necessary should not be supplied by contributions from the masses. If every democratic paper will take up the matter and lend a helping hand, we will soon have money enough in the treasury to provide for legitimate campaign work, and that is all we want."

He stated that funds of this character are now being raised by Tennessee and Oklahoma papers. Wants Ohio Harmonious Bryan today sent former Attorney General Frank S. Jones and E. H. Moore back to Ohio with a message to the leaders of that state that Ohio must be made safe for the democratic ticket this fall by relegating all personal differences and devoting all efforts to party success. It is said Bryan has not much hope of carrying Illinois.

LA CROSSE WINS BALL GAME

Dusky Aborigines Meet With Their Squaws for an Annual Outing up the River

The six tribes of Redmen who had their annual outing yesterday one mile south of Trempealeau, were favored with splendid weather. The Redmen of Trempealeau, Galesville, Ettrick, Bangor, Winona and Winnishiek Tribe No. 21 of this city, left La Crosse yesterday morning, six tribes strong, for the scene of the joyful powwow. The usual games and sports were played and a number of La Crosse people were among the prize winners. When asked about the picnic today Mr. Wallace said "You talk like a dam(p) soda cracker. Don't you know that the Redmen have a good time every time they go out."

Refreshments, such as lemonade, peanuts, popcorn, candy, ice cream were served by the Redmen and squaws of the Winona and La Crosse tribes.

La Crosse Braves Win The game between the La Crosse and Winona Redmen resulted in the scalping of the latter by a score of 8 to 5. Ed Raymond pitched for the local redskins while Heap Chief Charlie Harzer played backstop. It is said that eleven balls were used during the game because Raymond threw so fast that the balls got hot and had to be laid on the grass to cool.

Winona Ladies 11, La Crosse 2. The baseball game between the ladies of the Winona and La Crosse lodges resulted in a score of 11 to 2 in favor of the former team. Mrs. Geo. Will pitched for the local team. Mr. Buhchman said that he had to get the ball in line with a tree in order to find out whether or not it was moving. Mrs. Harzer completed the Winnishiek battery and made a record of having stopped the ball three times out of every ten times it was thrown over.

La Crosse People Winners About half a dozen of the local Redmen were among the prize winners in the contests. There were girls races, women's races, fat men's races, egg rolling contests, three-legged races and every kind of a contest conceivable by a half civilized Redman. Emil Ruprecht was an easy victor in the fat man's race and among the other winners in the various contests were, Mrs. Geo. Will, Mrs. Henry Walter and Mrs. Chas. Harzer.

WARNS AGAINST CIRCUS THIEVES

CHIEF OF POLICE SAYS THEY MAY COME THICK

SCHEMES TO WORK PEOPLE

Favorite Trick Is to Appear at Front Door and Ring Bell to Ascertain if Residents Are at Home

Chief of Police John Weber this morning issued the regular warning to the people of La Crosse regarding the necessity of keeping a sharp lookout about the premises and streets for circus sneak thieves and robbers.

Chief Weber this morning called special attention to the fact that has been worked frequently within the past year about the country. One of the thieves, who is looking for a victim, will ring the bell at the front door and if some one answers, ask some question. If after ringing the bell no one answers he will at once go to the back door and enter with a skeleton key by prying the door.

"This game has been worked to death during the past year," said the chief, "and the only way to stop this is when any one comes to your door with such a fake talk, telephone the police and they will investigate and probably stop some plotted robbery."

Chief Weber also calls special attention to keeping the doors and windows well bolted while away from the house and to use every precaution against giving such sneak thieves an opportunity.

HANDICAP MATCH AT GOLF CLUB

In an eighteen hole handicap match against bogey Saturday afternoon on the Schaghticoke golf course, F. A. Holbrook won the cup for golfers over fifty years of age. Augustus M. Tourtellotte captured the trophy played for by those under fifty years of age. The frequent downpour during the afternoon and the unusually heavy putting caused by wet greens caused many to drop out before the finish was reached.

Twenty-two players braved the rain and turned in their score cards at the end of the match. Most of the players are in good form for the state tournament which is to be held at Kenosha July 30, 31 and August 1. The scores of Saturday's match were as follows:

Over Fifty
F. A. Holbrook, 3 down, 15 handicap.
L. C. Colman, 4 down, 12 handicap.
F. A. Copeland, 5 down, 18 handicap.

Under Fifty
A. M. Tourtellotte, 5 up, 3 handicap.
R. Gordon, 1 up, 3 handicap.
A. T. Holmes, square, 3 handicap.
H. L. Colman, square, 12 handicap.
P. M. Gelatt, 2 down, 6 handicap.
G. M. Heath, 2 down, 12 handicap.
C. J. Felber, 3 down, 15 handicap.
H. J. Hirschheimer, 3 down, 9 handicap.

E. J. Evans, 3 down, 6 handicap.
R. C. Whelpley, 4 down, 12 handicap.
C. S. Van Auker, 5 down, 12 handicap.
F. P. Hixon, 6 down, 1 handicap.
F. H. Hankerson, 7 down, 1 handicap.
E. L. Colman, 9 down, 7 handicap.
J. W. Bryant, 12 down, 3 handicap.

Bogey for the eighteen hole is 84.

JOSTEN WINDOWS ATTRACT ANGLERS

The windows of the Josten Hardware company have for a long time held the record in La Crosse for attractive displays. The latest idea displayed there are two camping scenes. Mr. Josten gave the suggestion which was followed out by John Young who executed the plan.

One window shows a little cottage on the shore of a river or lake. Behind it is the woods of green cedar and in front the beach terminating in a gravel water front. In front of the cabin are displayed sporting goods and suggestions for the camper.

The other show window displays a small pavilion at the edge of a lake. Sporting goods are scattered around in profusion while in front of the pavilion is a pond inhabited by several fish. This window has also a green cedar background and does full credit to the originality of the trimmer.

The sky lines of the window are an important part of the display. The right window has for a skyline, hammocks, while the other has fish nets of various kinds and sizes.

Mr. Josten is a firm believer that good displays make good sales and the windows in his store show that he is carrying out his policy.

KICKED CUSTOMER; IS FINED TODAY

Because he kicked Peter Peterson out of his saloon, Peter Webber, the North Side saloonkeeper, was this morning paid a fine of \$1.00 and costs, amounting to \$6.10.

According to the story of Webber he had refused to sell beer to Peterson or any of his family. One night Peterson came into the place and demanded beer only to be refused. A quarrel started and the end was when Peterson was kicked out by Webber.

WISCONSIN NEWS

NUMBER OF STATE CHARGES LARGER

REPORTS OF FISCAL YEAR SHOW BIG INCREASE

IN NEED OF MORE BUILDINGS

Board of Control Is Making a Searching Investigation Covering the Past Thirty Years

MADISON, Wis., July 20.—During the last year there has been a slight increase in all the state institutions, according to the fiscal year reports, which are now being filed with the state board of control. The population of the state prison at Waupun is probably the only exception to this rule, the number there remaining practically the same. This does not indicate that fewer people have been sent to the institution, on account of a decrease of crime in the state, but is the direct result of the operation of the parole law in Wisconsin. There has been a large increase in the northern insane hospital at Oshkosh.

One new institution was started during the year, the sanatorium at Wales for the treatment of tuberculous patients. It has fifty-three patients.

Institutions' Population. The following table shows the population of each of the state institutions at the close of the fiscal year, June 30:

Northern insane hospital, Oshkosh	613
School for deaf, Delavan	620
School for blind, Janesville	202
Industrial school, Waushara	88
State prison, Waupun	351
State public school, Sparta	647
Home for feeble minded, Chippewa Falls	174
Reformatory, Green Bay	764
Tuberculosis sanatorium, Wales	53

The home for the feeble minded has the largest population of any institution in the state and in all probability the next session of the legislature will be asked to build more cottages. There is also some talk of a hospital for criminal insane. These patients, about forty in number, are now kept at the northern insane hospital, but there is a general sentiment that the people and relatives of these unfortunates would be more satisfied if the insane and criminal insane were in separate institutions.

Data Gathered by Board. The board of control is now gathering data on the number of insane, epileptic, blind and feeble minded in the state. Reports from the different county institutions are being received and also reports are being gathered in the different towns of the number of unfortunates that are cared for either privately or in private institutions.

The gathering of this will be the most thorough examination made in the last thirty years in the United States in all probability and in many instances the examination will follow one made in Massachusetts over a score of years ago. The matter will be laid before the next legislature and it is believed will be the basis for action on the building of additions to some of the state institutions and remedial measures to decrease the number of these unfortunates, if possible.

STATE NEWS IN BRIEF

WAUSAUKEE.—On a charge of selling brook trout, Eddie C. Miller was fined \$25. Fred Tourtellotte pleaded guilty to a similar charge, was let off with a \$10 fine.

WHITEWATER.—While standing on a ladder painting a Delavan building, Philo Crofoot fell thirty feet, fracturing his leg, cutting his head and breaking his nose.

WHITEWATER.—The electrical storm of the past week have resulted in burning four newly filled barns in Walworth county.

WHITEWATER.—Mrs. Francisco, mother of N. O. Francisco, Delavan, will celebrate her ninety-seventh birthday here.

WASHBURN.—The influx of settlers to Bayfield county this season has been greater than in any year heretofore.

SHEBOYGAN.—The pea louse has made its appearance in local fields, a sixty acre field near Oastburg being destroyed in twenty-four hours. Manitowish county is said to be suffering from the same pest. Only a one-third crop will be harvested.

SHEBOYGAN.—Sheboygan's fourteen survivors out of the 201 who enlisted in 1861 in company C, Fourth Wisconsin cavalry, will hold a reunion Aug. 15 and 16.

STEVENS POINT.—Contracts for eight miles of road have been let by the towns of Pine Grove and Buena Vista.

VIOLA.—A harvest home picnic will be given here on Aug. 26.

WASHBURN.—As the result of being lashed in the eye by a horse's tail, Frank Cate will perhaps be blind for the rest of his life. Cate lost one of his eyes several years ago by getting lime splashed in it.

WHITEWATER.—The eleventh annual session of the Delavan assembly will open Aug. 6, Judge Willis Brown of Salt Lake, being the first attraction. He will tell how to "Manufacture a Man."

WHITEWATER.—E. Latimer, president of the National bank of Delavan, with which he has been connected for forty-three years, has retired, his successor being Cashier A. H. Kendrick.

STORM DAMAGES CENTRAL WISCONSIN

HAIL AND WIND LAYS MANY FIELDS FLAT

NEARLY WRECKS A TRAIN

Trees, Hit by Lightning, Fall Across Railroad Track—Passenger Nearly Ditched

WAUSAU, Wis., July 20.—The heavy wind storms in this section of the state the last few weeks have done considerable damage. It was one of the most severe electrical storms in a belt from Eland Junction to New London that section has experienced this year. The proverbial hail stones as large as hen's eggs were nearly duplicated.

Corn Blown Down. The hail and rain were driven by the heavy wind and much damage was done to growing crops and to windows. Corn fields lying in the storm belt suffered, the crop being blown flat. Other crops met same fate, many fields of rye practically ready to harvest being almost totally destroyed.

Lightning struck the P. H. Murphy company's warehouse in Bear Creek (Welcome), Wis., starting a fire which the village crude fire apparatus could not extinguish and upon which the torrents of rain had no effect. The building was entirely destroyed, with it going considerable grain and potatoes. The loss was probably \$8,000.

Lightning Saves Train. Near Clintonville, where the storm seemed to center, two trees growing on a bank overlooking a cut in which tracks of the Ashland division of the Northwestern road lie were struck by lightning and blown to pieces, the heavy tops being carried fully sixty feet and blown into the cut ahead of the passenger train which connects at Eland Junction with the train arriving in Wausau at 9:55 o'clock.

The engineer was unable to see over four rods ahead of his train through the blinding storm, but a vivid flash of lightning disclosed the obstruction on the rails just in time for him to stop his train within a few feet of the trees. Axes in the hands of trainmen and passengers cleared the wreckage away in about half an hour and the train proceeded on its way.

A number of barns, houses and trees were struck in the section of the country lying to the south of Eland Junction, but no fatalities have been reported.

Store Fronts Blown In. TONY, Wis., July 20.—A severe windstorm did much damage at Ingram, a small station east of here. The stack of the planing mill was lowered, a roof torn off a standing box car and many fronts of business places blown in.

MOUNTED TROOPS AT CAMP DOUGLAS

CAMP DOUGLAS, Wis., July 20.—The last week of the encampment opened with the arrival of the Milwaukee mounted organizations, Troop A and Battery A, and the Second regiment. The latter organization is considerably weaker in strength up to date than the other two regiments, which have attended the encampment. Additional men arrived yesterday.

A downpour of rain fell shortly after the last section of the Second regiment arrived, which would have drenched the command had the tents not been left up by the Third regiment.

The members of the battery were most anxious on their arrival here to learn of the condition of Quartermaster Sergeant Herbert J. MacArthur, who fell from the baggage car at West Allis and, according to reports the battery received some ten miles further on, sustained a crushed foot. Nothing was known of the accident at the time it happened. One of the soldiers reported to Captain Westphal that a member of the troop had fallen off the train. A roll call of the troop showed all present and it was learned it was the battery quartermaster.

EAU CLAIRE IS CHOSEN BY LABOR

FOND DU LAC, Wis., July 20.—The seventeenth annual convention of the Wisconsin State Federation of Labor will be held in Eau Claire. This was decided at the closing session of the convention here.

Frank J. Weber, Milwaukee, was re-elected district organizer, and Fred Brockhausen, Milwaukee, was re-elected secretary-treasurer. The members of the executive board are James Sheehan and Will Hamann of Milwaukee, F. B. Hillstead, Eau Claire, Henry Skidmore, Madison, and Will Kaufman, Kenosha.

The delegate to the American Federation of Labor to be held at Denver, Colo., is Charles F. Jeske, Milwaukee, with E. T. Melms, alternate. The delegates to the state and national convention of the Farmers' Society of Equity are Edmund T. Melms and Fred Brockhausen, Milwaukee. The alternates are E. B. Hillstead, Eau Claire, and E. H. Rasenberg, Milwaukee.

The convention closed at noon and a meeting of the executive board was held in the afternoon.

The man who succeeds is he who has learned to work while he waits.

LOCAL MARKET

There are no changes in the local market with the exception of a jump of one cent in the fresh egg quotation by the Hawley Commission company. The stores are busy stocking up and preparing for the circus day and saengerfest week rush as a very heavy run of business in the provision line is expected.

BALLOON FLIGHTS DISMAL FAILURES

ONLY SHORT DISTANCES ARE COVERED BY AERONAUTS

WERE HANDICAPPED BY GAS

Too Heavy to Enable Them to Carry Sufficient Ballast for Long Trip From St. Paul

ST. PAUL, Minn., July 20.—All the balloons which started from St. Paul in an effort to surpass the world's distance and endurance record, have landed.

The Pomern was the last to land, dropping at 10:30 at Warsaw, Minn.

Chicago's Short Trip

The Chicago, the largest balloon in the race, owned by C. A. Coey of Chicago, came down at noon near Blooming Prairie, Minn., about 85 miles south of St. Paul.

Lieut. J. G. Bennett, pilot of the King Edward, landed at 7:45 o'clock at Hampton, Minn., on his return to St. Paul. He denied the story that his balloon had caught in telephone wires.

A. Leo Stevens, director of the race, in explaining the failure of the aeronauts to lift greater distances said that the lifting power of the gas was not as great as they had counted on and that consequently the balloons were unable to carry near the amount of ballast necessary for a long flight.

Capt. P. S. Hudson, pilot of the balloon American, which landed at 8:15, six miles south of Owatonna, Minn., eighty miles south of here, returned to St. Paul with his assistant, Horace B. Wild of Chicago.

Gas Was Too Heavy

"We were handicapped to start with," said Mr. Wild, "because the gas was too heavy. To make a long flight we should have carried fifty sacks of sand ballast, but we were unable to get away with more than fourteen."

"We shot up to a height of 4,600 feet and sailed at that level for a long time. Our highest altitude was 5,200 feet. As the sun began to sink in the west the gas began to contract and the balloon fell to 2,000 foot level. Clouds also obscured the sun and caused a further contraction of the gas. We sought a current of air immediately beneath the clouds and for a considerable distance sailed among the most magnificent scenery I ever beheld. The clouds floated above us, carried along by the current of air in which we were sailing. At times we would rise into the clouds and become engulfed in fog, and then fall a little and again see the clouds floating above us."

"As the sun sank further in the west, we threw out sand a handful at a time. Finally we descended until we were within ten feet of the earth and our trail rope was dragging over trees, fields and fences. We threw out sand and rose again. Determined to stay in the air as long as possible—especially bent on beating the United States which we saw behind us—we threw overboard everything that added unnecessarily to the weight of the balloon, even water and food. Pies that we had

DROPPED COFFEE Doctor Gains 20 Pounds on Postum.

A physician of Wash, D. C., says of his coffee experience:

"For years I suffered with periodical headaches which grew more frequent until they became almost constant. So severe were they that sometimes I was almost frantic. I was sallow, constipated, irritable, spineless; my memory was poor, I trembled and my thoughts were often confused."

"My wife, in her wisdom, believed coffee was responsible for these ills and urged me to drop it. I tried many times to do so, but it was its slave."

"Finally Wife bought a package of Postum and persuaded me to try it, but she made it same as ordinary coffee and I was disgusted with the taste. (I make this emphatic because I fear many others have had the same experience.) She was distressed at her failure and we carefully read the directions, made it right, boiled it full 15 minutes after boiling commenced, and with good cream and sugar, I liked it—it invigorated and seemed to nourish me."

"That was about a year ago. Now I have no headaches, am not sallow, sleepless and irritable any more, my brain clear and my hand steady. I have gained 20 lbs. and feel I am a new man."

"I do not hesitate to give Postum due credit. Of course dropping coffee was the main thing, but I had dropped it before, using chocolate, cocoa and other things to no purpose."

"Postum not only seemed to act as an invigorant, but as an article of nourishment, giving me the needed phosphates and albumens. This is no imaginary tale. It can be substantiated by my wife and her sister, who both changed to Postum and are hearty women of about 70."

"I write this for the information and encouragement of others, and with a feeling of gratitude to the inventor of Postum."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a Reason."

brought with us we broke into small pieces and threw away, little at a time.

Spent All but Two Sacks
"We thought for a time that we would be able to sail through the night, knowing that the warming sun in the morning would expand the gas and carry us into the high currents. But after we had spent all our ballast but two sacks, which were essential to safe landing, we decided to come down."

"The landing was effected without difficulty in a meadow six miles from Owatonna. In climbing from the basket Capt. Hudson tripped and sprained his ankle."

"The view from the balloon as we were sailing high above the earth was one of the most picturesque I have ever seen. So clear is the air above the dust laden atmosphere that when we were fifty miles from St. Paul through our glasses we could see the balloons in Lexington park that had not yet been released."

Distance Covered by Balloons
Distance in balloon races are measured in a line from the starting point to the landing place, and not by the total number of miles traveled. A table of the air line distances traveled by the balloons that have landed compiled this evening, follows: King Edward, 24 miles; United States, 55 miles; American, 58 miles; Chicago, 73 miles.

MADE ILL; SUES FOR \$10,000.

SIoux FALLS, S. D., July 20.—An interesting damage suit for \$10,000, in which the Chicago, Milwaukee & St. Paul railway is the defendant, has just been transferred from the state circuit court of Brown county to the United States court in this city. Mrs. Jennie Malloy of Aberdeen is the plaintiff.

It is alleged by Mrs. Malloy in her complaint that on Feb. 24 of the present year Henry Soike, an agent of the railroad company, made an affidavit and procured from the court of W. O. Jones, police justice at Aberdeen, a search warrant against the premises then occupied by Mrs. Malloy as a home, and that on that day the sheriff of Brown county, armed with the warrant, made a search of her premises for goods which were alleged to have been stolen property from the railroad company. None of the stolen property was found on the Malloy premises.

LIGHTNING RIPS UP HOMES.
BRainerd, Minn., July 20.—The occupants of two residences in Brainerd had a miraculous escape from death by lightning Thursday evening about 7 o'clock.

At the home of Albert C. Erickson, the lightning entered the roof of the house, passing down and going out at several points. Mrs. Erickson was standing by a front window watching the storm. The fluid passed down the wall at her back, tearing a great hole in the wall and burning off the wire which held a heavy picture, which just missed her when it fell. The bolt then passed through a partition, and out through the front door, tearing the door casing and a hall window to pieces.

MADMAN TURNS "BAD MAN."
MARSHALLTOWN, Ia., July 20.—While insane Samuel Coleman of Davenport, a colored member of the Soldiers' home, ran away from the hospital, went to the packing plant of Brittain & Co. and began holding up laborers as they passed him in the narrow alley way in the stock yards. After he had held up three men the home was notified. Coleman was arraigned, adjudged insane and taken to the Independent hospital.

SHORT LINE IS MERGED.
IOWA FALLS, Ia., July 20.—By the action of the stockholders of the Des Moines, Iowa Falls & Northern Railway company, that road passed out of existence, a majority of the stock in the Short Line voting to sell its property to the St. Paul & Des Moines Railroad company. At the meeting of the stockholders in this city 7,485 of the 9,025 shares were represented and the vote to sell was unanimous.

COSTS \$100 TO FACK GUN.

MARSHALLTOWN, Ia., July 20.—Albert Winans, an Iowa Central guard, was fined \$100 and costs or thirty days in jail by Mayor Ingelund for carrying concealed weapons. The company which defended Winans, appealed to the district court. Six appeals were made by the police for fighting in the strike zone. No one was seriously hurt, although William Byers of Tama was severely beaten about the head. Otherwise the strike situation is unchanged and quiet.

DROPS BOLT; BABY KILLED.

WEBSTER CITY, Ia., July 20.—John McDonald, a farmer living near Duncombe, dropped a bolt upon the head of his 2-year-old baby, inflicting an injury from which the child died.

McDonald was working on his windmill and the baby was playing on the ground under it. While making repairs the father dropped a bolt he was using. The bolt of iron struck the child, cracking the skull.

Almost crazed with grief, the parents hastened to the hospital here with the boy, who died a few hours later.

WATER STARTS \$10,000 FIRE.

ELKADER, Ia., July 20.—High water in the Volga river caused a fire that destroyed about \$10,000 worth of property here. The blaze originated in the basement of a hardware store where lime was stored and which was inundated. The Catholic church and the hardware stock were destroyed.

SAENGERFEST WELCOME TO VISITORS AND HOME-FOLK!

Grand Gala Week Filled with Merriment, Music, Fun, Frolic, Jollity--and Bargains!
The Greatest Musical Festival Ever Known in the Northwest!

A "gathering of the Clans" to the melody of the "Songs of the Fatherland." A combined Convention, Homecoming and Jubilee! La Crosse is proud today of the enterprise of her people. For what she dared and what she's done the music loving people of two continents will meet within her portals to do her homage this week. The visitors will come by tens of thousands, and the city will ring to the music of their voices as the Anthems rise and swell until they cleave the vaulted dome of Heaven above. And this Doerflinger Store joins heartily and proudly in that grand welcome which is so full and big that no multitude, however great could absorb it all. We feel our hand has been in this undertaking and done its part toward achieving it's success—unparalleled in the annals of the city's accomplishments—and we are proud of it. The din of the "Anvil Chorus" has been lost in the morning fog off the Harbor on the water front and Success perches on the banners of our loyal Yeomen. That grand chorus which rises, swells and fills the vast Auditorium until its walls bulge outward, sounds paens of rejoicing for a newer, bigger, better La Crosse—a La Crosse that shall take her place among the musical metropolises of the world. The store extends greeting and breathes welcome to all. It is the "Bulls-Eye" of La Crosse at which the throngs will aim—the "Hub" around which the city will revolve. Welcome to Doerflinger's—All welcome!

THE VILLAGE BLACKSMITH

The World Famous \$60,000 Painting by H. De Mareau, on Free Exhibition in the Store for One Week, Beginning this Afternoon at 2 O'Clock.

The Village Blacksmith is the most wonderful depiction of fire and freight in the world. To see the flaming forge, the heated horseshoe and the life-like resemblance of the village smithy brings to one's mind involuntarily the words of Longfellow in his eternal Psalm of Labor:

"The smith, a mighty man is he,
With large and sinewy hands;
And the muscles of his brawny arms
Are strong as iron bands."

It cost \$45,000 to secure this wonderful product of the noted French artist's brush, and today it's worth \$60,000. The size of the canvas is 7x8 feet. It was painted in a blacksmith shop in Lyons, France. At the time of the artist's death he was indebted to the blacksmith for his services as a model and for the use of his shop. To pay this obligation the canvas was sold, after which it was awarded a bronze medal at the Grand Salon.

We have made extraordinary preparations for the proper reception of this wonderful piece of work, and have given up 216 feet of floor space to it on the second floor.

Every man, woman, girl and boy should see the masterpiece. Art students and teachers especially ought not to miss seeing it. It is worth the homage of every one—and it is free to every patron—for one week, beginning this Monday afternoon, July 20th, at 2 o'clock.

the vicinity of Underwood last week with the characters, "1710 A. M. N." cut in the shell on its back. The turtle was found by Oscar Wilson. There is considerable speculation as to whether the numbers were carved by some early explorer, as turtles live for several hundred years.

DIPS INTO PAUL; STABBED.

CARRINGTON, N. D., July 20.—Because Ranso Rappael took some water from the bucket at a boarding car here Michael Shabo Saberio stabbed him with a knife, inflicting wounds from which Rappael soon died. Both are Italians and members of a railway surfacing gang. The fatal affray occurred while the men were preparing for the repast, Saberio being cook in the car.

GRIM REAPER WINS RACE.

CRESTON, Ia., July 20.—Racing with death from coast to coast, Miss Della Bainton, daughter of a wealthy New York merchant, died on Burlington train No. 2 as it was pulling into the station here. The young woman was returning to Jersey City, N. J., from a search for health on the Pacific coast, and was accompanied only by a nurse. The body was shipped to Jersey City.

AGED BATHER DROWNED.

CROOKSTON, Minn., July 20.—Larson, 70 years old, was drowned in the Lost river near his home a few miles south of Plummer. The man was in bathing when the accident occurred. He was a widower with one son, who began looking for him when he missed him, finding the

body of his father lying face downward in shallow water.

NORTHWEST IN BRIEF

FERGUS FALLS, Minn.—Mr. and Mrs. P. A. Honeycutt celebrated their silver wedding anniversary on Thursday evening with a large gathering of their friends. They were presented with a handsome silver service and other appropriate gifts.

MARSHALLTOWN, Ia.—The annual outing of the Modern Woodmen of America will be held on Aug. 6 at Alden, Hardin county. Five counties of central Iowa are included in the association. One of the chief features of the day will be the competitive drill for prizes by teams from the various lodges.

HUGHES HAS NOT BEEN PACIFIED

WASHINGTON, D. C., July 20.—Why has Gov. Charles Evans Hughes, the New York executive, been unrepresented in the harmony conferences between Judge Taft and the late lamented "allies" at Hot Springs?

That's what politicians of the first magnitude are asking in Washington today. Is the governor grouchy over something, or don't the Taftites want him to play in their back yard?

The smoke of battle had hardly cleared away before Speaker Cannon was puffing his cigar under Judge Taft's vine and fig-tree and expressing his humble desire to serve Buckeye Bill in whatsoever capacity he might will. Senator Beveridge, Senator Hemenway and Representative Watson blocked the door in their

eagerness to get into Judge Taft's room first to tell him how loyal the Fairbanks men would be to the Ohio nominee. Being the loudest talker, Senator Beveridge got Judge Taft's ear first.

Representative Burke of Pennsylvania, hot footed it across country, from Senator Knox's country home to tell the new big chief how much the senator loved the conqueror. He had hardly gotten to Hot Springs before Representative Cooper, of Wisconsin, came in to pledge the vote of the La Follette crowd of reformers. Even Senator Dick, of Ohio, strutted around, as the representative of Senator Foraker, to display within the sight of Judge Taft a beautiful white flag.

But where was he who bore the insignia of Gov. Hughes? Not in Hot Springs! And Judge Taft has seen no one of that stripe since he was nominated. The politicians are wondering if he wants to.

IMPORTANCE OF THE ORDINARY MATCH

WASHINGTON, D. C., July 20.—Did you ever think of the part the lowly match plays in the progress of the world? Did you ever look upon the little phosphorous stick as an agent of civilization?

Everywhere throughout the world is the ever-present match. That old myth of savages starting fires by rubbing two sticks together is well-nigh a lost art in these days. Take down in Brazil for instance, Concel General Anderson, writing from Rio, declares that even in the almost inaccessible portions of the interior, where the semi-civilized people are

deprived of everything in the way of civilized supplies, yet there are matches, to light the iniquitous cigarette, or kindle the campfire.

There are, of course, some people yet unacquainted with the match—but they are of the lowest stratum of civilization. Globe trotters have found the match to go hand in hand with the first evidence of civilization. And the world's output of matches is staggering in its enormous aggregate. Thousands and thousands of acres of forest go down before the axemen each year to be manufactured into matches. In several countries match making (of the wood kindling variety) is a government monopoly; a great many more nations reap a goodly revenue income each year from the taxes on their manufacture.

Just for example, Brazil's output of matches was 202,041,000 boxes in 1907, from which the government derived a revenue of \$1,218,384 in taxes. That tax alone amounts to over \$1.50 for each man, woman and child in the country.

WON'T SHIP VAGS TO PHILIPPINES

WASHINGTON, D. C., July 20.—As President Roosevelt honored the late President Cleveland by renaming a Californian forest "Cleveland," so he is seeking to pay tribute to the coming president—maybe by removing the stigma of the name of "Land of the Undesirables" from Judge Taft's pet country, the Philippines.

Through the secretary of state, orders have gone out to the American consular representatives at Asiatic ports to discontinue their long-established

practice of shipping vagrants to Manila. The Philippines have been made the dumping grounds for human trash, who claim American citizenship. It is said, on the theory that at Manila, or vicinity, work may be procured by the wanderlust victims, or that they might be sent on to the states. Such a practice was very nice for the Asiatic ports, but Manila did not see any fun in it, and complained at the cost thus placed upon her. The question of taking care of these stranded persons, or sending them home on a government ship was a vexing one and the authorities of the city and of the islands complained to the president.

Last year there were not less than 223 vagrants who were provided with transportation. In 140 of these cases the cost of subsistence was paid by the insular government. Some of these are sailors who had been discharged and who had deserted from American sailing vessels either at Manila or at such places as Hongkong, or Singapore, whence they were sent to Manila by the local American consular representative, "on their way home," wherever that might be. Manila is tired of being the capital of the Undesirables and Busted, and her kick has been heeded.

PASTOR HITS SCHOOL DANCES.

NEW RICHMOND, Wis., July 20.—The evils of the high school dances was the subject of a sermon by the Rev. F. P. Harvey of the Methodist church yesterday. There have been several of these dances lately and the Rev. Mr. Harvey declares they start more girls on the road to ruin than any other form of amusement.
